Product design leader with **7+ years of experience** building products, design systems, and teams across fintech, education, and B2B. Leads design across complex workflows, translating business and user needs into scalable product experiences across web and mobile.

Experienced in **design-system architecture, cross-module patterns, product strategy, and user research**, with a focus on creating systems that enable designers to work independently and consistently at scale.

DESIGN SYSTEMS & PRODUCT ARCHITECTURE

Built scalable design systems across **Razorpay, Cuemath, and smallcase**, covering **components, Figma variables, tokens, and responsive patterns**. Extended these systems into **behavioural guidelines and interaction principles** used across product experiences.

EXPERIENCE

Senior Design Associate (AVP) @ JPMorgan Chase

Dec 2024 – Present

- Leading enterprise product design across onboarding systems, task-lifecycle frameworks, account journeys, and documentation flows for compliance-heavy workplace platforms.
- Simplified complex workflows by defining scalable frameworks across interconnected product experiences.
- Won the Workplace AI Awards hackathon by redesigning advisor prospecting workflows and improving visibility across prospect follow-ups.

Senior Product Designer @ Cuemath

Feb 2023 – Aug 2024

- Led product design across admissions, growth, retention, and learning journeys, shaping cohesive lifecycle experiences from fragmented flows.
- Built the digital admissions experience from the ground up, improving launch-month US admissions by **11%** and payment-session conversion by **20%**.
