## Senior Product Designer — Enterprise Systems

J.P. Morgan | Cuemath | Udaan | smallcase | RazorpayX

Portfolio Website

91-8092233430

abhishekrj4300@gmail.com

### Senior Product Designer with 7+ years across fintech, ecommerce, edtech, SME finance, SaaS, and enterprise UX.

Currently designing for J.P. Morgan Workplace Solutions, a SaaS-style enterprise platform focused on onboarding systems, task lifecycle frameworks, advisor workflows, account journeys, profile journeys, and documentation experiences. Also growing into a hands-on product builder, designing independent products and using AI-assisted vibe coding to prototype with speed, curiosity, and craft. Known for turning complex workflows, platform data models, and multi-stakeholder operations into scalable, intuitive, product-led systems.

#### EXPERIENCE

##### J.P. Morgan — Senior Design Associate (AVP)

Present

- Designed **SaaS-style enterprise onboarding systems** for companies joining J.P. Morgan Workplace Solutions, defining how entities, accounts, required data, documentation, and setup tasks are structured.
- Built the **task lifecycle framework end-to-end**, shaping task types, states, dependencies, ownership, status visibility, and workflow behavior across the product.
- Designed **account, profile, and documentation journeys** aligned to user intent, compliance-heavy data requirements, and key product stages.
- Won the **JPMC Hackathon** by redesigning advisor prospecting workflows, improving follow-up tracking, engagement visibility, and relationship-management clarity.

##### Cuemath — Senior Product Designer

Feb 2023 - Nov 2024

- Built a **0-to-1 digital admissions platform** replacing RM-led admissions with a product-led journey from discovery to payment and enrollment.
- Improved **referrals and retention flows** to strengthen growth loops, reduce friction, and make earlier product-led journeys more coherent.

##### Udaan — Product Designer II

Mar 2021 - Sep 2022

- Led **product design for the food category**, including vendor research, homepage strategy, focused-group insights, and category workflow improvements.
- Scaled and improved the **design system** across teams, making components more accessible and creating a framework to measure design-system KPIs.
- Created **storyboards and GTM touchpoints** for TVCs, WhatsApp campaigns, and app surfaces across ecommerce category journeys.

##### smallcase — Product Designer

Dec 2018 - Dec 2020

- Designed **smallcase gateway** enabling embedded investing, merchant entry points, and single or multi-stock transaction flows on partner sites.
- Created **landing pages and product touchpoints** to communicate value points, improve merchant adoption, and support strategic entry surfaces.
- Built **visual, illustration, email, iconography, and component guides** supporting consistent product communication and design-system adoption.

##### RazorpayX — Senior Product Designer, Contract

Sep 2022 - Feb 2023

- Designed **mobile and Apple Watch SME finance experiences** for on-the-go business workflows, startup finance visibility, and quick operational access.

##### Pagarbook — Brand & Product

Jan 2021 - Mar 2021

- Designed **brand and product-growth systems** across marketing pages, brand guides, voice-and-tone direction, and mobile design-system foundations.

#### CORE STRENGTHS

Systems Thinking

Workflow Design

Enterprise UX

0-to-1 Product Design

Design Systems

Fintech UX

#### TOOLS

Figma

Notion

#### HIGHLIGHTS

##### JPMC Hackathon Winner

Advisor prospecting redesign for follow-up tracking and engagement visibility.

##### Built 0-to-1 Admissions

Cuemath product-led admissions from discovery through payment.

##### Led Design Systems
