PROFESSIONAL SUMMARY

Senior Product Designer with 7+ years of experience across enterprise UX, fintech, SaaS, edtech, investing, and B2B commerce products. Strong in interaction design, workflow design, information architecture, design systems, user research, product strategy, stakeholder alignment, roadmapping, and high-fidelity prototyping.

WORK EXPERIENCE

Senior Design Associate (AVP) - JPMorgan Chase

Dec 2024 - Present

- Designed enterprise UX for onboarding systems, task lifecycle frameworks, account journeys, and documentation flows across compliance-heavy workplace platforms.
- Translated business requirements into roadmap-aligned product structures, interaction flows, workflow states, and scalable platform patterns with product, engineering, and leadership stakeholders.
- Won the Workplace AI Awards hackathon by redesigning advisor prospecting workflows, improving visibility across prospect follow-ups, and creating a clearer customer engagement model.

Senior Product Designer - Cuemath

Feb 2023 - Aug 2024

- Led product design across admissions, growth, retention, and learning journeys, moving fragmented flows into more cohesive lifecycle experiences.
- Built the digital admissions experience from the ground up, improving launch-month US admissions by 11% and payment-session conversion by 20%.
- Led a team of 3 designers by breaking business requirements into roadmaps, sprints, and scoped workstreams while strengthening design culture and collaboration.

Founding Product Designer - smallcase

Dec 2018 - Feb 2021

- Designed smallcase Gateway from 0-to-1, helping brokers and fintech platforms integrate stock and smallcase investing experiences.
- Owned merchant onboarding, investment flows, single-stock journeys, success states, and partner integration touchpoints across the ecosystem.
- Helped the first release scale from 24 to 160 merchants in 4 months, supporting ~7 cr transaction volume, 99.8% uptime, and high merchant NPS.

UX Designer - Part-time / Consulting

2021 - 2023

- Pagarbook:** Designed employment, payroll, and SME finance experiences for mobile-first business owners. [Pagarbook project](#)
- Razorpay:** Designed fintech UX for mobile-first banking workflows including bulk payouts, vendor payments, approval flows, urgent money-movement actions, task prioritization, and business banking operations. [Razorpay project](#)
